

Retro Maniacs

Inspiration has been a major part of menswear in recent years, as has the 90s and early 2000s - all times when bootcut and flared denim and trousers were prominent.

High-lighted a roomy fit, wide-leg trousers as a dressier alternative to the comfort sweat pants. Invest in high summer fabrics such as cotton and linen that will allow for effort less beach to work leisure style.

The shapely flared trouser is updated to deliver a myriad of aesthetics, from 70s inspired party pant to a vacation-worthy kick trouser that can take the customer from beach to party.

#bringingbacktheclassics

A Retro Maniac is someone who designs based on older, historical styles. A contemporary version of this style often incorporates elements from past design movements, such as Art Deco and mid-century modern. The goal of retro maniac is to create a feeling of nostalgia, often by using bold colors, geometric patterns, and vintage-inspired graphics. This collection is inspired by the '70's era when cotton was the king. It has blue salt and pepper washes with twisted plays on hems.

Mom- fit with dagger hem.

Color: Dagger Blue

Weight: 11.75 Oz

Composition: 99% Cotton & 1%
Lycra
